Dedication

This dedication is proudly presented by the sophomore class to Mrs. Mary Mathers in gratitude for her unceasing interest and encouragement. As the assistant to the Dean of Students, she has a never ending awareness of the activities, meetings, schedules, and

most important, the individual needs of the student. Mrs. Mathers, we hope that this yearbook brings back memories of the class of 1969 and the confidence we found in your advice and help.

President Pelham's Address: Class of 1969

In reflecting upon the two years your class has been at Mount Vernon, it is apparent that the theme selected for your yearbook is most appropriate. As you have stated, life represents a "fine mingling," and since your arrival in September 1967, you have not only witnessed but also participated in:

- The Middle States Association's Evaluation
- The implementation of the Master Site Plan
- The ground-breaking for the new Chapel
- The plans for the new Gatehouse and main entrance
- The institution of the Invitational Seminar Program
- The Forum

and numerous other innovations within the curriculum and co-curricular programs of the College.

Your class has also played a major role in establishing a new sense of purpose within the College community and in promoting a well-defined but ever-expand-

ing horizon of self-awareness and knowledge. What distinguishes your coordinate efforts especially is the enthusiastic and active recognition of an increasingly creative approach to the process of learning.

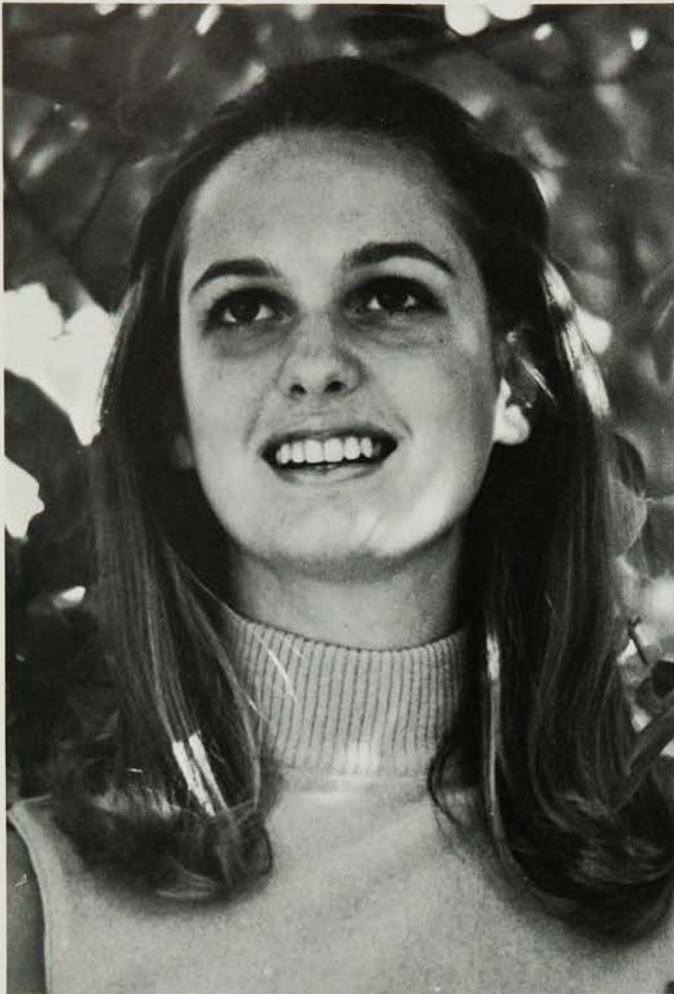

Mount Vernon is on an educational as well as historical threshold. You have helped to bring her to this point. In the future, the College will be judged not only by the distinction of its programs but also on the significance of its graduates' achievements as measured by the individual's sense of purpose, fulfillment, and contributions to the community of man.

The responsibility of the future rests with you, as well as with those of us who remain here. It is hoped that in creating your individual horizons, you will always retain both a "fine mingling" within the many facets of your lives and an active and thoughtful voice in the affairs of the College.

Forum

Forum is an innovation which brought many well known speakers to Mount Vernon's campus this year. Among the most well known were Channing Phillips, John Hechinger, Father Corrigan, and Jack Valenti. They have brought to the students a great interest in current events in Washington as well as the nation. Mrs. Mountain has been the coordinator of this weekly event. She also is the editor of "Other Than The White House", a monthly publication which informs the student of social, political, and cultural events in the D.C. area.

Nineteen Sixty-eight was a great year for the Young Republicans. Washington offered a great deal of activities and excitement. Many girls were involved in precinct and campaign work. January saw the participation in Inaugural events. March was a traveling month and saw Mount Vernon girls going to Lexington, Kentucky, for a Region III Convention. April finished out the year with Capitol Hill work and the nationally Known Leadership Training School.
